CLASSIC BLASTS BOOMING WINS!

The world's first casino games based on Konami Digital Entertainment's iconic BOMBERMAN are a mind-blowing encounter for players on Konami's latest game cabinet form factor! Inspired by legendary IP from the consumer video games space, BOMBERMAN BLAST™ and BOMBERMAN BOOM™ feature recognizable characters from the games, using classic BOMBERMAN bombs to help burst open bonus prize opportunities.

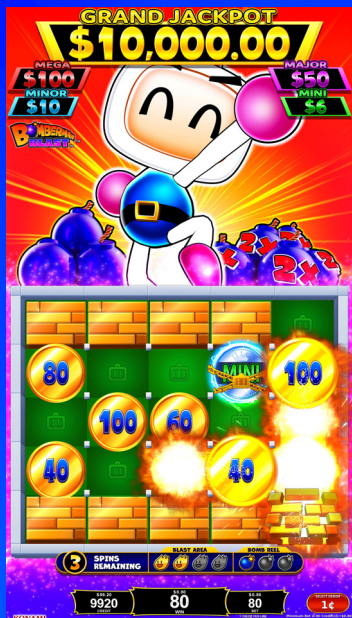

BOMBER GAME FEATURE

Anytime a yellow "BOMBER GAME" Bomb trigger symbol lands on the reels, players can win the hold and spin feature, and the feature is guaranteed when 3 are collected in a spin. The hold and spin feature begins with 5 spins, adding +1 spin anytime a new Prize or Bomb symbol is collected. Available spins are displayed just below the reel frame, along with meters tracking Blast Area—symbolizing the range of symbol positions the Bomb symbols can reach—and Bomb Reel—symbolizing the volume of active Bomb symbols that can appear. These tools are used toward brick walls covering the top and bottom positions of the reels, offering players the possibility to burst open and reveal surprising bonuses to help boost their feature game experience including:

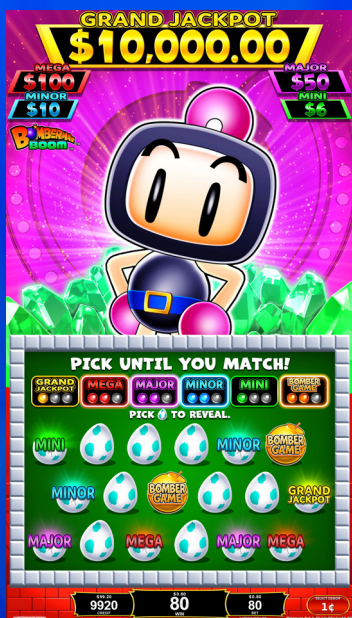

- **Power Up Symbol:** Expands the Blast Area meter
- **Bomb Meter Symbol:** Increases the Bomb Reel meter
- **+1 Spin Symbol:** Adds to the Spins Remaining meter
- **Bonus Coin Symbols:** Award Mega, Major, Minor, and Mini bonus prizes

During the Bomber Game Feature, players can collect the following rewards in spaces void of brick walls:

- **Gold Coin Symbols:** Award random credit prize amounts
- **Locked Bonus Coin Symbols:** Display locked Mega, Major, Minor, and Mini bonus prizes, available to unlock if included in a triggered Blast Area
- **Bomb Symbols:** Blast the reels in a radius corresponding to the Blast Area, to collect bonuses and rewards houses within that area
- **2x Bomb Symbols:** Provides a 2x boost on collected prizes when blasting the reels in a radius corresponding to the Blast Area

JACKPOT GAME FEATURE

JACKPOT GAME FEATURE

Anytime a blue "JACKPOT FEATURE" Bomb trigger symbol lands on the reels, players can win a jackpot pick feature, and the feature is guaranteed when 3 are collected in a spin. Upon entering the feature, players are presented 18 speckled eggs, to crack open and seek to match 3 to win a static bonus prize, the Bomber Game Feature, or the big progressive Grand jackpot.

FREE GAMES FEATURE

Anytime a red "FREE GAME" Bomb trigger symbol lands on the reels, players can win a free game feature, and the feature is guaranteed when 3 are collected in a spin. Each debut base game in Konami's BOMBERMAN slot series has its own free spin experience for players to enjoy.

FREE GAMES FEATURE

BOMBERMAN slots are available with 2 debut base games, which can combine under the same 1-level link.

The original BOMBERMAN himself serves as hero character in BOMBERMAN BLAST, bringing an extra sense of play to every spin. When players win the Free Games Feature in this compatible base game, card symbols all turn blue, transforming to random picture symbols at the end of each spin for high-value bonus win opportunities. Random stacked symbols are also in effect throughout the feature, taking the win possibilities to even greater heights!

Longtime BOMBERMAN fans will recognize the dark-suited Black BOMBERMAN in BOMBERMAN BOOM. The free game feature in this base game amps up the Wild symbols in ways not found anywhere else in the series. Bonus Wild symbols can randomly appear across the center reels anytime throughout game play, transforming into Full Reel Wild symbols with the chance at random multipliers up to 5x. In addition, special Gold Bombs can randomly appear across the center reels during the Free Game Feature, bursting them with random Full Reel Wilds and/or Full Reel Wild multipliers.
