FREE GAME FEATURE

COIN FEATURE:

Throughout primary play, Wild red envelope symbols appear on reels one and two. If a red envelope lands on both the first and second reels, the player collects any random credit prize coin symbols that land on the subsequent reels, regardless of whether they are connected. Coins can also display instant Minor and Mini jackpot awards.

PROGRESSIVE JACKPOT PICK FEATURE:

Any time a Wild red envelope symbol lands on the reels, the progressive jackpot pick feature can be awarded. When awarded, 30 red envelopes flood the screen for the player reveal a guaranteed jackpot award: Mini, Minor, Major, or Grand.

FREE GAME FEATURE:

Any three yin yang symbols award the free game feature. Throughout the free games, players enjoy higher potential prize opportunities related to the Wild red envelope symbol, however the nature of the opportunity is unique to the base game—whether Jade Wealth™ or Plum Riches™.

BET CONFIGURATION

Lucky Envelope is available in 1¢, 2¢, 5¢, and 10¢ denominations, with an 88-credit minimum bet. All four progressive jackpots are available at all bet levels, with jackpot odds increasing at higher bet levels. In addition, progressive jackpot reset levels scale according to denomination.

AVAILABLE GAME THEMES

With its rich, serene green tones, Jade Wealth infuses the Lucky Envelope free game feature with random multipliers. Any Wild red envelope symbols on reels one and two may include additional 2x or 3x multipliers. If a Wild red envelope symbol lands in any position on reels one and two, coin credit prizes are awarded, with the multiplier applied to all prizes, except Minor and Mini coins.

Bathed in deep purple hues, Lucky Envelope: Plum Riches heralds its own unique free game adventure. The free game feature found in Plum Riches takes the Coin Feature even further, by only requiring a red envelope on reel one, with coin credit prizes available across all the remaining reels.
