GAME PLAY

Panda Power combines popular Konami base games on the lower screen with a middle screen bonus reel frame and a top screen bonus wheel—leveraging all 3 game screens to share panda-filled game play experiences! The series offers a wild array of slot adventures for players to enjoy, with base games they already know and love.

Panda Power Feature is awarded with 3 or more Panda Power symbols

Spin the top screen prize wheel for multipliers or jackpot awards

Spin the middle bonus reels for bonus spins

PANDA POWER FEATURE

Throughout game play, small Panda Power symbols appear across all reels. Whenever 3 or more Panda Power symbols land, the Panda Power Feature is awarded. The middle bonus reel frame is activated, and players receive 1 spin on a reel filled with only panda face symbols and blank symbols. Depending on the number of Panda Power symbols that triggered the feature and the number of panda faces collected on the middle bonus reel frame, the player is awarded a corresponding number of bonus spins. To make the rewards even greater, players next move to the prize wheel in the top screen where they have the chance at a guaranteed additional prize above beyond the awarded bonus spins. Possible prizes include:

- GRAND PROGRESSIVE JACKPOT
- MAJOR PROGRESSIVE JACKPOT
- 2X, 3X, 4X, OR 5X MULTIPLIERS DURING THE BONUS SPINS

Once the wheel award is revealed, the bottom reel frame transforms to the bonus spin feature, for players to play out their awarded bonus spins.

BET CONFIGURATION

Panda Power is available in 1¢, 2¢, 5¢, 10¢, 25¢, 50¢, and \$1 options. Jackpot odds increase at higher bet levels.

PANDA POWER IS LAUNCHING WITH SEVERAL COMPATIBLE BASE GAMES

This Xtra Reward® title is an original math 5-reel game that pays tribute to the top-performing classic with two long-tailed Dragon's Law™ characters displayed in the upper screen—a red dragon and a blue dragon—for double the mystery feature excitement. Randomly before or after any spin, either one or both dragon characters will snake across the reels to scatter additional wild symbols. Dragon's Law Twin Fever also includes a free game feature, triggered by any 3 or more scatter yin-yang symbols. The Dragon's Law Feature occurs more frequently during the free games, and additional free games can be won during the free game feature.

Feel the earth quiver and the jackpots quake when you wield the power of the Greek god of thunder in Thunder Warrior™. Inspired by strength of Thor, this 5-reel slot game places him as the hero character. His face covers the wild symbol, his helmet acts as the scatter symbol, and his hammer gleams as Pic-A. Whenever a wild symbol lands on the reels, there is a chance Thor shoots down lightning upon the reels, randomly sending full-reel wilds across any reels.

No matter the time year, Konami's popular Solstice Celebration™ 5-reel video slot captures the magic of the seasons with fascinating bonus play and frequent Sparkle Feature. The game uses Konami's Xtra Reward and Action Stacked Symbols® to create stacks of framed matching symbols for increasing win combinations. Anytime framed stacked symbols cover 2 or more reels, any remaining partially-framed reels nudge to cover the entire reel and all framed symbols are transformed to a matching, random gigantic symbol—an extra winning opportunity called the Sparkle Feature. Should the Sparkle Feature produce the free game princess symbol, players win up to 40 free games. During the free games, any wild sun symbols automatically nudge to cover the entire reel with wilds, and the Sparkle Feature can occur more frequently.

Lion Carnival™ is among the most popular releases in Konami's Multiple Lines 15 REELS™ series. It features a mystery multiplier chance throughout game play. All multipliers appearing after the reels stop will be multiplied together, for a total multiplier from 1x to 144x. During the free games, the mystery multiplier feature is always active.
