BUFFET OF RICHES

Hungry for a hit? A true feast of fortune, Stuffed Coins Pig™ and Stuffed Coins Toad™ offer re-spin adventures, mystery multipliers, wheel spins, and unique free games designed to delight! This original new linked series by Konami Gaming, Inc. combines a wide mix of proven bonus features for a high-reward slot experience. Similar to Konami's popular Ocean Spin™ slot series, Stuffed Coins™ uses the top screen to display available bonus awards like jackpot coin and multiplier coin symbols, which rotate across all connected machines. These rotating Coin symbols become redeemable during a wheel spin bonus called the Big Coin Feature—one of many delights in Stuffed Coins' buffet of bonus events!

Stuffed Coins is launching to market with a pair of compatible base games. Each base game theme features original math, unique free game features, and differing hero characters. The series supports a mix of multi-denom options. It is available on DIMENSION 27™ with custom merchandising options.

GAME PLAY

Stuffed Coins is a 2-level linked progressive game with a 243 Ways base game. A mix of random bonus events can occur throughout primary play including:

RE-SPIN FEATURE:

Any 3 more Coin or Wild symbols on the first 3 reels, gives players the chance to collect Coin symbol credit prizes during the Re-Spin Feature. All symbols are cleared from the reels except Coin symbols and the center Wild symbol, and the feature continues so long as at least 1 symbol continues to land, or until the entire reel frame is filled, which awards the linked progressive Grand jackpot.

MYSTERY MULTIPLIER FEATURE:

The symbol position in the very center of the reel frame only contains Wild symbols and low-value card symbols. Anytime the Wild symbol lands, there is a chance to win a mystery multiplier, which is applied to any win combination in which the Wild symbol appeared.

FREE GAMES:

Any 3 or more gong symbols award up to 15 free games. +1 Spin symbols appear throughout the free game feature, granting extra free spins anytime they land on the reels.

BIG COIN FEATURE:

Anytime the Wild symbol lands, players also have a chance to trigger the Big Coin Feature. Players are invited to spin the wheel of big coin prizes running across the top screen, with the chance at a progressive jackpot, a bonus award, and multipliers up to 10x. As the wheel slows, the Pig or Toad character will open its mouth and munch on an award. Additional spins can randomly be awarded within the same feature, up to four times. Any collected multipliers are applied to the win in which the Big Coin Feature was triggered.

GAME THEME COMPATIBILITY

Stuffed Coins is available with two unique base games:

This edition features a golden pig in the center screen, with a golden ingot at its belly. The free game feature in Stuffed Coins Pig includes increased Coins symbols, increasing odds at unlocking the Re-Spin Feature

This version shows a Toad character, which grows in size based on the number of Wild symbols that land in the center reel over time. During the free games, Stuffed Coins Toad guarantees a Wild symbol in the center symbol position for every spin, increasing odds at the Re-Spin Feature and the Big Coin Feature.

BET CONFIGURATION

Stuffed Coins is a multi-denomination linked progressive with 1¢, 2¢, 5¢, and 10¢ options. Standalone bonus awards scale according to bet.

PROGRESSIVE CONFIGURATION

The linked progressive Grand jackpot can be set at a $5,000 or $2,500 reset, according to property preference.
