

Money Klip™ Cashless Wagering

Simplify the gaming experience

Because some of your players would prefer to game without the hassle of carrying cash or chips for table games or feeding cash or high-value TITO tickets into their favorite machine, SYNKROS® offers a paperless wagering system delivered through their patron loyalty account. Money Klip™ empowers players to load their loyalty card with funds and access those funds directly on the casino floor through a secure PIN.

**Availability is subject to regulatory requirements by jurisdiction*

HOW IT WORKS:

Players can load funds into their Money Klip account linked to their player's card through transactions at the cage, game, kiosk, or electronically through an integrated third party financial payment processor.

FUND AT THE CAGE

When a patron comes to the casino cage to deposit funds into their Money Klip account, attendants can complete the transaction directly through SYNKROS' Cage & Vault. Attendants can also perform withdrawals and print transaction receipts directly through the same location in SYNKROS.

FUND AT THE GAME

When the patron's Money Klip account is enabled, it can also be funded by inserting bills in the validator of any slot machine while actively carded. Any accumulated credits are then automatically added to the player's Money Klip account when the play session is completed.

FUND AT THE KIOSK

Patrons can walk-up to existing third-party kiosks at the property to deposit and withdrawal funds from their gaming wallet. SYNKROS provides a robust and easy-to-use integration layer to facilitate integrations with many of the industry's most popular kiosk providers.

FUND VIA THIRD PARTY PAYMENT PROCESSORS

Money Klip accounts can be externally funded through integrations with a variety of third-party financial payment processors, such as Sightline Payments, Everi, and more. This reduces physical touchpoints for players, floor staff, cage staff, and back-office staff.

When a patron's Money Klip account is enabled, players can use those funds for table game buy-in or players can have their walk-with added back to the Money Klip account.

FEATURES	BENEFITS
PIN-secured cashless wagering	Empower patrons to enjoy secure cashless wagering rather than navigating the hassles of carrying cash, handling paper vouchers, finding ticket redemption kiosks, waiting in lines, and other related service inconveniences with TITO
Fully electronic transactions and management	Reduce service times and operational overhead associated cash drop, and TITO maintenance; Prevent patron dissatisfaction from printer jams and/or ticket paper out
Full access to required reports, including Patron Account Reports, Liability Reports, Cashless Meter Reconciliation Summary, Detail Reports, and Cashier Reports	Gain total visibility to patron cashless wagering, ensuring accountability and compliance
Front money is included in the new Front Money to Cashless Wagering Form	Allow table games administrators to transfer patron front money funds directly to their cashless wager account, and vice versa

TECHNICAL REQUIREMENTS

Available in SYNKROS version 3.24.2 and higher.
